Dawn-Marie Mutell, Founder and CEO of Life's Necessities and Luxuries – Home, Body, Soul and Life-Styling business. She has been named a Life Commodities Broker. She is a versatile wardrobe stylist, skincare expert, and life coach. She has planned special events for the entertainment and corporate sector. All the while organizing home and offices nationwide. She's a business and life coach who has over 20 years of experience in the fashion, beauty and entertainment industries.

She chose this line of work because she herself lost her self-esteem after being struck by a drunk driver when she was only 22. She felt broke and broken and had to teach herself to get her life back together again.

Dawn-Marie gets enthralled in her work when she sees her clients glowing and feeling renewed after they have had their first makeover and wardrobe clearing experience. She helps them find the perfect outfits for their body types, clear out the unusable items in their wardrobes and helps them save thousands of dollars a year on their wardrobe needs. She helps them find their perfect color palette for their skin tones and addresses any of their skin concerns.

The difference between Dawn-Marie and other fashion stylists is that she's studied fashion for over 35 years, worked in theatre watching the transformations from blah to blazing just from using the right costumes and makeup. She's certified by the top designer schools in the US – The Fashion Institute of Technology and it's her life's mission to help over 10,000 men and women in the next ten years.
